

Good afternoon,

Please find attached a submission to the Conservative Human Rights Commission call for evidence into "*an inquiry into human rights in China 2016-2020*".

I am submitting a response on behalf on [Fight for Freedom, Stand with Hong Kong](#) - an independent, grassroots, crowdfunded group of individuals who have come together to fight for freedom and democracy for Hong Kong.

The submission will contain three briefing documents that focus on the situation in Hong Kong, highlighting China's continual encroachment on the freedoms and human rights in Hong Kong; and recommendations for what the United Kingdom could do to address these issues.

These briefing documents are on the following:

- Briefing on the Sino-British Joint Declaration
- Briefing on Magnitsky-Style Sanctions
- Briefing on British National (Overseas) Citizens

It is worth noting The Whitehouse Consultancy is also the secretariat to the APPG on Hong Kong.

Currently, the APPG on Hong Kong is undergoing an inquiry [into "violations of human rights and humanitarian principles by the Hong Kong Police Force"](#). The report for the inquiry is due to be published in July.

Thank you for your work on this important issue, and we look forward to hearing the inquiry's findings in the future.

All the best,

Dom
